Fixture Whips

FLEXIBLE STEEL PRE-ASSEMBLED WHIPS

Bergen Fixture Whips - Complete assembly ready to install 6ft whips. Standard 3/8" FMC Includes 6" wire leads each end and Die Cast Screw In Connectors or Snap-in Fittings for easy and hassle-free hook-ups. 1/2" FMC trade size also available. Bergen whips meet all requirements of the 2017 NEC, Article 348. Contractor friendly cost-effective whips are an efficient alternative to pipe & wire installations. Bergen Fixture Whips are assembled in the USA using only UL Listed or UL Recognized components.

### ILLUMINATION CONTROL FIXTURE WHIPS

Bergen's ICFW's are used for combining Power / Lighting Circuits (black/white/green) with class 2 or class 3 Control Circuits / dimming ballast & digital controls (purple, gray) all within the same fixture whip. Easy to install & color coded to reduce installation error. Meets UL & NEC Requirements. (See Figure 1)

Figure 1
Shown with Standard
Snap-In Connector

Features:

- Complete assembly ready to install 6' whips
- Stranded or Solid Conductors
- Meets Requirements of 2017 NEC
- 25pc Bundle or 200pc Barrel

Uses:

- Commonly used for connecting fluorescent, LED lay-in fixtures and incandescent fixtures for suspended and accessible ceilings.
