5000 KELVIN

Bergen's 100-ft LED integrated string lights are durable enough to withstand the rigors of a construction site while being light-weight to use in residential applications. Each light only consumes 13-watts of power while having 1600 lumens. Construction grade temporary string lights are manufactured with 18/2 SJTW cable and NEMA 5-15 molded plug and connector ends. Rated for outdoor use and is ETLus listed and OSHA and NEC compliant.

WIRE GAUGE SIZE	BERGEN PART #	DESCRIPTION
